Splendid Services Mark Dedication Of Co-Operative Church Here

Sunday

A splendid congregation assembled in the Co-operative Church on Sunday last for the official opening and dedication of the building for public worship. The building was artistically decorated with beautiful flowers and plants from the homes of members of the congregation. Rev. Thos. Powell had charge of the service assisted by Rev. A. Sutherland of Consort and the pastor of the local Church. The sermon was a splendid presentation of the claim of the Christian Church for the support and consideration of people everywhere and sounded a bold challenge for greater and wider activities. The dedication service immediately followed the regular service and the building was solemnly set apart for the worship of God while the entire congregation stood reverently in prayer. After the pronouncing of the Benediction the sacrament was served to as many as wished to partake thereof and the morning worship was concluded by a call to higher achievement and greater consecration. The evening service was in charge of the pastor, who gave a brief, practical talk from John 7: 17. At both services the choir was assisted by Mrs. Meiklejohn of Consort and Mr. H. A. Warner of town both of whom rendered special musical numbers at morning and evening worship.

Monday

The concert and Public Social which was held on Monday evening was a distinct success. There were not as many present as there might have been but say!—didn't you have a splendid time? The program consisted of solos, vocal and instrumental, duets, recitations, group singing, and speeches representative of Consort, as well as local talent. At the close of the program the ladies of the Aid served sandwiches, cake and coffee and a splendid half hour of social enjoyment succeeded the distribution of the "eats." Before the meetings dispensed Mrs. Shannon bespoke the appreciation of the ladies of the aid and audience for the splendid program rendered and Messrs Gray and Murphy fittingly replied on behalf of the visitors from the West. The artists of the evening were as follows:—Members of the Consort Pres. Choir, Mrs. Murphy, Mrs. McFottridge, Mrs. Meiklejohn, Mrs. McGauley, the Misses Sherbino and Bibby, Mrs. Ullray

Mrs. E. Davidge, Rev. Satre and Mr. H. A. Warner. Mr. Roy Cramer also featured in the sale of several cakes! The pastor of the church presided as chairman and the Recording Steward as door-keeper. We trust that is only the first of a long series of really enjoyable social gatherings that we will have together in this recently completed and dedicated Community Church.

Our sincerest thanks is given to all who helped in anyway to make these gatherings the success which they were and to Mrs. Marshman for the loan of her piano

OBITUARY

The sad death occurred on Friday, May 5th, of Edgar Marshall Earl, aged 9 years and 9 months.

The deceased, a bright little chap, was taken ill on the 18th of April, with measles, which developed into tonsillitis, and in spite of all that Dr. Day of Consort, attending physician, assisted by Mrs. Mullen could do the youngster slipped into the long sleep.

The Rev. Mr. Davidge of Monitor conducted the funeral service at the home of the deceased and at the grave-side.

Heartfelt sympathy from the entire community is extended to Mr. and Mrs. Geo. Earl in their hour of sad bereavement.

Red Cross Notes

A general meeting of everyone interested in Red Cross work will be held Thursday May 26th, in the big hall for the purpose of organizing a permanent branch of the Red Cross Society in Monitor. Mrs. Waugen of Calgary, provincial Secretary, will be present to explain the work of the peace time Red Cross and also to go into the matter of a Monitor Red Cross hospital.

It is to be hoped that every one in the town and surrounding district will make a point of being present at this meeting. So that a permanent branch of the society will represent the unqualified choice of the people as a whole,

Owing to the sickness of his mother, Mr. D. Vosburgh was hurriedly called to her bedside on Sunday last. Mrs. Vosburgh resides in the U. S. A.

The Rev. W. S. Wickenden returned from his trip to Saskatoon on Saturday last week.

Mr. and Mrs. E. Morris of Kirriemuir, paid a visit to town on Sunday last.

Mr. C. Deadmarsh has accepted a position with the West Regent Oil outfit, south of town

BORN. To Doctor and Mrs. W. F. Mason, on Monday May 16th, a son. Stillborn.

Municipal Hail Insurance will be issued immediately. Any person not filling the acreage, or withdrawing from the act, will be under a greater expense than last year if the Secretary has to make a trip to verify same.

Sports Day at Monitor, June 29th. Amongst the many attractions that have been secured by the Committees will be a couple of Aeroplanes. We have it on the best authority that the price for a trip will be within the reach of all. Further announcements will be made later.

Lighting Losses in Ontario

During the year 1919, in the Province of Ontario, there was a total loss from lightning fires of \$508,907. This loss may well be termed unnecessary waste, since good lightning-rods, properly installed, are more than 90 per cent efficient. While the loss for each fire caused by lightning in 1919 averaged \$714 the total loss on two protected buildings that were struck amounted to \$22. Many authorities advocate Government inspection of lightning-rod installations, and a suitable discount in insurance rates for building properly protected.

The Country Life Problem

Not long ago, says a writer in the "Problems of Democracy" department of The Literary Digest, a well-known traveler and writer was being shown through the immense Capitol building of a Middle-Western State. "Just see the great army of officials we employ," said his guide, "every man of them was born on a farm." And then the visitor was shown through a quarter of the city where "you can go a mile and see only the homes of retired farmers." Quoth the guide, "This is a wonderful farming State."

Yet, comments the Literary Digest writer, the boys on its farms dream of jobs in town, and old folks on its farms dream of homes in town, and, as soon as they can arrange it, hire somebody else to run the farm, and move away. In less "wonderful" farming States, meanwhile, you occasionally see farms abandoned outright, but even the custom of farming by proxy is deplorable.

In "The Country Life Movement," Mr. L. H. Bailey observes, "Farming by proxy or by any absentee method is as disastrous in the long run as the doing of any other business by proxy. I hold that it is essential that the very best people live actually on the land. The crops are there, the livestock is there. The machinery is there. All the investment is in the place itself. If this business is to be most effective, a good man must be constantly with it and manage it. A farm is not like a store or a factory that is shut up at night and on Sunday. The more difficult and complex the farming business becomes, the greater will be the necessity that a good man remain with it."

"The fundamental need," declares Mr. Bailey, "is to place effectively educated men and women in the open country." In his opinion all else depends on this. No formal means can be of any permanent avail until men and women of vision and with trained minds are at hand to work out the plans in an orderly way. Agriculture is now a school subject. It is recognized to be such in the schools course of studies, in the minds of the people, and of educationists and legislators. It has found its way into the high schools. In Western Canada it is the outstanding department in our Universities.

But do the young people thus trained return to the open country? Some of them, of course, but a lamentably small percentage of the total. Why not a larger number? Does farming pay? Is life in the open country attractive? Farming has its off years, and sometimes series of years, when the financial returns are not commensurate with the effort put forth. But the same thing is true of business generally. And assuredly farming today pays better than in the days of our grandparents. There are still many hardships in the more remote and pioneer districts, and conditions generally may not be quite so favorable as in the years before the war, but neither are conditions in the cities as favorable, with thousands of men out of employment. Such a situation is, however, only temporary; it will be overcome both in city and country.

Life in the open country is not as attractive as it should be for other reasons. The recreative life of the country community greatly needs to be stimulated. Not only games and recreation days need to be encouraged, but the spirit of relief from continuous and deadening toil must be encouraged. The country population needs to be livened up.

How is this awakening to be brought about? The small towns and villages, which are the real centres of all country districts, and whose very existence depends upon their surrounding farming communities, have a duty and an opportunity in this respect. In his admirable book, "The Little Town," Mr. H. P. Douglass devotes a chapter to "The Town's Country." Says Mr. Douglass, "The town's country is the area which trades with it; which makes common cause with it in buying and selling, in credit and transportation facilities." Its typical functionaries are the retail merchant, the banker, the postmaster, the doctor, the implement agent, the railway agent.

Moreover, the town's country is the area which comes to it for play, education and worship. Here are the country's moving pictures, its exhibition and sports grounds, and its Chautauquas. The country's high schools are here, and most of its ministers of religion live here. Here, though the farmer may not directly share in them, are those social groups and activities which he imitates and possibly envies. Most of the social organizations to which he may belong centre here.

Therefore, the small town has a duty to its own particular "country." And the opportunity is as great as the duty. Among the chief needs of the farming community today is wholesome recreation. There is little community life in the open country, except what centres in the small towns and villages. Its lack constitutes what one man has called "the intolerable condition of country life." In almost every other respect, life in the open country has improved. It is a less isolated life. Railways, telephones, automobiles have greatly relieved loneliness. But it is a jollier life? No one pretends that it is. There is no play for children; no recreation for the young folks. Yet it must be made jollier or we shall see more and more farms abandoned or farmed by proxy and more and more farm people moving to the city.

If we are to "place effectively educated men and women in the open country," men and women "of vision and with trained minds"—if we are to place them there and keep them there, we must promise them not only prosperity, but a jovial, sociable, merry existence which they will honestly prefer to life in town.

To Finish Big Store.

The new Hudson Bay store building at Victoria, B.C., the completion of which has been suspended during the war, will be finished and opened for business in the early autumn of this year.

Houses For Imperial Oil Employees.

Work has been started on construction of sixty dwellings for employees of the Imperial Oil Company at Vancouver. The work is being done under contract by the Dominion Construction Company.

Necessary That Canada Should Grow

Nation Must Have Men, But Not Undesirable Ones.

Both war debt and the railway situation require that Canada must grow, in the opinion of the Journal of the Canadian Bankers' Association, which says that to grow up to these we must "people the vacant spaces." However rigorous the United States may be in immigration regulations, due to the fact that they are approaching the saturation point, Canada's policy, the Journal states, can well afford to differ from that of her neighbor.

"It is well to remember," the Journal adds, "that a prosperous and advancing country has a greater digestion capacity than a stagnating country. Let us winnow out individual undesirables, . . . but men we must have. . . . Not least, we must seek to keep our own sons from drifting southward."

IS YOUR STOMACH SOUR? DO YOU BELCH GAS?

If you have sour risings from the stomach, feel bloated and uncomfortable, just try twenty drops of Nerviline in sweetened water. Relief will come quick. Nerviline dispels the gas, sweetens the stomach, makes you fit and fine in a few minutes. As a general household remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35 cent bottle of good old "Nerviline."

More than one-third of the children in Egypt die before the age of five years.

Heart Weak, Nerves Shattered After the "Flu."

In a large majority of cases those who survived the last epidemic of Spanish influenza were left with weak blood, and the whole system has been left in such a general weakened and exhausted condition that it has been impossible to get back your old health and strength.

If you are in this condition there is only one thing to do; take a course of Milburn's Heart and Nerve Pills and see how quickly your heart will be strengthened, your nerves toned up and your blood enriched. Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes: "I was left with a weak heart and in a rundown condition from the 'flu.' My nerves were badly shattered, and I had such pains in my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief; after taking six boxes have been well and not bothered since."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Burbank's Latest

Has Evolved New Wheat Which Is Exceedingly Early.

After experiments extending over eleven years, Luther Burbank, the great Californian horticulturist, is said to have evolved a "quality" wheat, containing over fourteen per cent. gluten, an astonishing improvement in this grain. The new type of wheat has a very large white, flinty kernel and produces a very white flour.

The new wheat, according to Mr. Burbank, is an exceedingly early wheat, being the earliest of some four or five hundred varieties which he has been growing. It has been tested alongside sixty-eight of the best wheats in the world, and has exceeded them all in yield, uniformity and all other desirable characteristics. The growth is strong, being four feet on good ordinary soil, it thrives unusually well, and on ordinary valley soil, with special cultivation, care, or fertilizing, produced this summer at the rate of 49.88 bushels per acre, every plant and every kernel being uniform, as this wheat was originally grown from one single kernel.

Nature was preoccupied when she put long hair on hunting dogs and filled the woods with burrs.

She Feels As Fine As A Growing Girl, Says This Winnipeg Woman

"My heart goes out to anyone suffering from indigestion and nervousness, and I want to tell them all about this grand Tanlac, for it is the medicine that relieved me of these troubles and restored my health," said Mrs. S. Jackson, wife of a prominent business man residing at 429 Agnes St., Winnipeg.

"Before I got Tanlac I was in a dreadfully nervous condition. I couldn't stand the least little noise, and at times I became so upset I was afraid I would go into hysterics. My appetite was so poor I had no desire to eat, and couldn't relish my meals

at all. My food didn't digest properly, and I was in a badly rundown condition. My sleep was restless and broken, and I felt miserable all the time.

"Well, Tanlac has rid me of all my troubles and put me in such fine health I feel as fine as when I was a growing girl. I eat good and hearty and enjoy my meals, and never have a care or worry. Why, I feel as fine as anybody could want to feel, and I can't help but be delighted and enthusiastic over this wonderful Tanlac."

Tanlac is sold by leading druggists everywhere.

Livestock For England

Edmonton District Has Made First Commercial Consignment.

A livestock shipment of importance to Central Alberta breeders has just been made from Edmonton consisting of four carloads of choice steers, all weighing about 1,400 pounds, bought from their original owners at 8½ cents a pound, which have left for England. This is the first commercial consignment ever made from the Edmonton district overseas, and it is expected to be the precursor of a regular traffic.

Minard's Liniment Lumberman's Friend.

Valuable Furs Sent to U.S.

Furs to the value of \$1,500,000 were sent to the United States through this city in 1920, according to annual report of the United States consul here.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Will Be Honored Guest.

The Prince of Wales has accepted an invitation from the West India Committee to attend a banquet in London, on June 24, to be presided over by Lord Harewood, the president. It is interesting to recall that it is just over 100 years ago that the committee had the honor of entertaining the Duke of Clarence, afterwards King William IV, and the Duke of York, the Prince's great-great-granduncles.

Pioneer Dies At Vancouver.

Vancouver—Joseph Guichon, 78, a pioneer of British Columbia, and owner of the second largest ranch in the province, embracing 38,000 acres, died here recently following a long illness. A widow, four daughters and three sons survive.

THE BEST MEDICINE FOR LITTLE ONES

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Therrien, St. Gabriel de Brandon, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before trying the Tablets, but they soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Building In Western Canada.

Contracts for building construction during January and February of this year in the western provinces totalled \$5,547,300 in value against \$3,900,900 for the first two months of last year.

Stomach Treatment Futile For Catarrhal Trouble

Impossible to properly treat Catarrh in the nose or throat by dosing the stomach. To rid the system of Catarrh, send the healing vapor of Catarrhosein to the germs, and you accomplish real results. When you inhale the rich piney essence of Catarrhosein and get its healing balsams circulating all through the breathing organs, the cough is eased, sneezing stops, the nostrils are cleared, the throat is healed and freed from discharge. If you want permanent relief from Catarrh, irritable throat, bronchitis, use Catarrhosein several times every day. Safe and sure. Two months treatment One Dollar, small size 50c, all dealers or The Catarrhosein Co., Montreal.

The Lamp In The Window

By Frank Wall

It was just a little cottage, standing in a corner of what had once been old John Humphreys' farm. John Humphreys was dead and the farm had been merged long ago in the magnificent grounds of the house built by some unknown millionaire on the crest of the hill.

There were all kinds of rumors about that house, but the only facts were that no one had ever seen the owner or had even heard his name. The house, a palace in white with broad terraces and smooth sloping lawns, was exquisitely furnished; but only the caretaker and the scrub-woman enjoyed its perfections. Day by day and year by year it stood there drowsing in the warm sunshine, and at night the moon played quaintly about its white walls and cast long slanting shadows across the lawns; and that was the only sign of life there for almost twenty years.

The little cottage stood near the road and was occupied by old John Humphreys' son. He kept himself aloof from his neighbors and was not very popular. They said he had no social ability, no human feelings, and perhaps they were right. Ordinarily his face was like a mask, but when sunset came and he placed his little lamp in the window overlooking the road, it softened into an extraordinary tenderness. If the neighbors could have seen him then, they might have changed their opinion of him.

And this had gone on for nearly twenty years. Every night he lighted the little lamp and when he had lighted it he sat by the window watching and watching and watching for someone who never came.

Sometimes there were noisy parties who had motored down from New York, which was only fifty miles away, and they would come and ask for something to eat. He gave them the best he had, and then he would go back to his corner and stare down the unanswerable road.

One night a furious storm broke over that part of the country. The rain came down in torrents and the vivid flashes of lightning made the big house on the hill appear even more impressive and beautiful. After he had lighted his little lamp, he stood watching the storm, and it was while he was so occupied that he saw an automobile toiling painfully up the steep slope of the road. It came to a standstill opposite the cottage and half a dozen people alighted and hurried up the little path.

They were all young except one, a very beautiful woman of about forty years of age. The others addressed her as Madame Lesia, and the cottag-

er, sitting quietly in his corner, recalled her name as that of a great singer who, after years of struggle, had recently taken New York by storm. They were all artists of one kind or another, full of wild spirits, mocking every convention; and the one they called Madame Lesia was the wildest of them all. Yet there was this difference: that her wildness seemed to be forced. It was as though it struggled all the time with some deeper feeling, as though some secret fiber of her heart had been touched and she wished to hide it.

"Let us ask Madame Lesia," cried one in the midst of a furious argument; and the singer turned smilingly. "Jack Mountford says that if he were married he would sacrifice even his wife's happiness to his art, if need be; that art is supreme."

"And you, Helen?"

The girl laughed vivaciously and yet with an undercurrent of sadness. "I don't know," she murmured, "I want to be famous but I want to be happy too. Is it not possible to be both, Madame?"

The singer was staring at a photograph that stood on a side-table. It was a girl of perhaps twenty-three or twenty-four years of age, dressed in some cheap material, obviously village-made, but one scarcely noticed that for the transfiguring happiness that shone in her face.

"Do you see that girl?" she said quietly. "Do you notice how plainly she is dressed? And that cheap little wedding ring at which she is staring so intently? That girl isn't famous and yet she looks happy. And I," she added, as though speaking to herself, "I am what you call famous, but I am not happy."

The cottager had left his corner by the window, as though drawn by the sadness in the singer's voice. "That is my wife," he said hoarsely. "We lived near here, but the lure of New York crept like a poison into her veins. She thought she could become famous and she left me."

"Some day perhaps . . ." said the singer softly.

"Every night I light my little lamp in the window and watch for her return," said the man passionately. "Always I hope that she will come back to the simple happiness she cast aside for the glitter you call fame."

Madame Lesia rose suddenly. "We all hope so," she said earnestly. "See, my friends, the storm is over. Who will prepare the car for the journey back?"

The young men of the party raced out at once and the girls followed a moment later. Madame Lesia turned to the cottager. Her eyes were shining. "They told me you had gone abroad," she said.

The man lifted his hands in a gesture of despair. "For twenty years I have waited here," he said. "And now . . . you have come back, but you are famous. This humble life will appeal to you less than ever."

"I want you," she whispered, "that is all I care about. I would have spoken as soon as I saw you, but I was afraid. And as for the fame you speak of . . . it means nothing to me now."

Her companions were calling her. The man went to the window and took down the little lamp he had tended so faithfully.

"It is for you to decide," he said solemnly. "God knows I want you, but there is no bitterness in my heart now. If you decide to go back to your great world I will put out this light and there is an end of all my hopes."

The others were at the door now, and she went and stood by her husband. "This is how I answer that question, Helen," she said to the girl. "I left my husband twenty years ago. I have tasted all that fame can offer and now I come back home. You must go on to New York without me. This cottage is my home."

"No," cried the man in a ringing voice. "I have something else to say. You lived of me because you said I wasted too much time on that invention I was working on. Well, I justified my ambition as you justified yours." He went across the room and pulled aside the curtain, showing the big house on the crest of the hill, glorious in the moonlight. "That is the result of my invention," he cried. "That is the home to which you have come back."

Police Force Strengthened

Provision Made for Enforcing Law at Fort McMurray.

The importance of Fort McMurray as a jumping off place for the great north land, and the fact that the townsite is at the end of the steel of the Alberta & Great Waterways line, has resulted in the Alberta Provincial Police strengthening their Ft. McMurray detachment. It is the anticipation of the police that additional police protection will be required at the steel's end.

Constable J. Smith, formerly of the detachment at Clyde, left Edmonton for Fort McMurray recently and will take up his post at that point and co-operate with Constable J. B. McDonald who has been stationed at Fort McMurray for the past three or four years. Two men will also be stationed at Lac la Biche, these being Constables Moses and McCarthy.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Not the Ireland of History

According to Government Murders Are Committed by Imported Gunmen.

The dragging of a woman out of her humble home in the dead of night and shooting her to death, heedless of her pitiful appeals for mercy, and riddling her poor body with bullets under the open sky—surely this is not Ireland! Certainly, it is not the Ireland of history, in whose pages we find chivalry and tenderness and pity and gallant service rendered to worthy causes by a high-spirited race, who thrill to what is high and poetic, and find a catch in the throat for all things lovely and exalted.

The Government, must be right; and the murders which suffice the cheek with shame are committed by gangs of ruffians who have been prime accessories for whom the sacredness of human life does not exist and who will kill for wages, without compunction or remorse. It must be so, for it is incredible that any Irishman would commit the inefable crime of murdering a helpless woman, whose appeal for mercy could not be withstood by the fiercest savages.

The Plant For Winnipeg.

Plans for the erection this fall, or early next spring, of the first unit of a brick tile and glazed tile manufacturing plant in Winnipeg are now completed, according to C. L. Thompson, manager of the Martin Engineering Company, of Niagara Falls, Ontario. The first unit will have a capacity of 20,000,000 face brick a year. Deposits of clay used in the manufacture of red buff face brick are known to exist in close proximity to the city.

Life's Minor Ailments should be promptly attended to

It is well to keep the liver active, stomach healthy and bowels regular, the mind clear, alert and efficient. Beecham's Pills taken according to directions will help to keep the digestive processes active. Life will be more satisfactory and successful by taking

A Matter Of Sense.

Cardinal Bourne is quite clear that there can be no complete separation of Ireland and England. He does not believe that the Irish want it. For this is a matter, not so much of sentiment, but of sense. Ireland cannot live without Great Britain, and from the standpoint of national defense it may be said that Great Britain cannot live without Ireland. The sooner that dream disappears the better. The Argonaut.

Migrating From California

Many Families Moving Household Goods and Stock.

A party of twenty families from California passed through New Westminster recently to look at farming lands in the northeast part of British Columbia. Most of these families have already bought acreage, and are moving in their household effects, stock and implements.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

HON. T. A. CRERAR SAYS GET WILD LANDS LISTED

Leader of National Progressive Party Endorses Principle of Legislation Requested by Western Canada Colonization Association and Its Multitude of Supporters Throughout Manitoba, Saskatchewan and Alberta.

Hon. T. A. Crerar's statement reads: "The proposal of the Western Canada Colonization Association that an inventory of unoccupied land be taken under Governmental auspices in the prairie provinces, and that the owners of such land should be obliged to fix a price at which they would sell to incoming settlers, is, I think, an excellent one. The fact that the price so fixed would be made the value for assessment of the special Wild Lands Tax would keep the owner of the land down to a price that was reasonably fair. Land speculation, and for that matter speculation in other natural resources, has been one of the worst evils this country has suffered from.

It is generally agreed that Canada needs more people but an immigration policy can only have permanent success if the people who are already living here are relieved of the artificial handicaps under which they have labored in the past, of which these speculations in land is one. The more people that come into the country the higher the land speculator raises the price. In the best interests therefore of the people of Canada the proposal that land held out of use should be made available for those who want to use it is sound and deserves the support of all good Canadian citizens. This step is in line with what the organized farmers of Western Canada have advocated for many years."

Canada To See "All Star" Football

Tour of Scottish Team Is Creating Wildest Enthusiasm.

When the officers and members of the Scottish All-Star football team arrive in Halifax on May 18th, the desire of all Canadian football men to have an Old Country professional, first-class team of players come to this country, will be replete.

The Dominion Football Association, through President Dan MacNeil and Secretary-Treasurer D. W. Roy, have completed final arrangements after several month's efforts and development, and are now on their way to the Atlantic seaboard to welcome the party on behalf of the Association which they represent.

The party of sixteen players, who have been chosen for this long deferred missionary football enterprise to cement the ties of the Empire and bind Canada and Scotland closer in the bonds of sport and brotherhood, left Glasgow, May 10, and will sail from Liverpool on the Cunard liner, S.S. Cameronia. Upon their arrival in Canada, the Canadian National Railways will take charge of transporting the party to the Pacific coast and return. In order that games may be played in the principal cities in Canada and as the tour is a missionary effort for the sake of sport, fostered in an Imperial spirit, for the good of our Dominion, making the enterprise "National," it was only fitting that the National systems should be utilized. This railway is bending every effort to make the tour a pleasant one for the visitors and special facilities will be placed at their disposal by the National line.

The forthcoming tour is creating the wildest enthusiasm in Canada and in addition to the matches played here, the programme will include four games in the chief cities in the States. Matches in Canada will be played at Halifax on May 18th; Montreal, May 24th; Ottawa, May 21st; Hamilton, May 26th; Toronto, May 28th; Fort William-Port Arthur, June 1st; Winnipeg, June 4th; Regina, June 6th; Saskatoon, June 8th; Calgary, June 11th; Edmonton, June 14th; Vancouver, June 18th. On the return-trip, they will play at Prince Albert on June 28th; Winnipeg, July 1st; Toronto, July 6th; International game at Montreal on July 9th. The four games in the chief cities in the United States will be played between 9th and 26th.

The officials taking part in this patriotic football mission include Col. J. B. Wilson, V.D., chairman of the Third Lanark Club; Andrew Mitchell and Thomas Sloan, two of the directors; and Mr. Connell, who is manager of the undertaking. The lineup and personnel of the team is:—

Craig Brown.—Centre half-back of the Motherwell club, who came into the team when Cringan, the Celtic star, was forced to withdraw. Is credited with being a "team in himself" by Old Country experts, and is certain to make a lasting impression.

John Marshall.—One of the two players from English clubs, expected to tour with the Scottish team. Plays for Middlesborough, and is credited by "Bedouin" as being the greatest

right back of modern times. Starred in recent international.

James E. Gordon.—Captained Scotland's team on several occasions. Formerly starred for Rangers but has been performing for Dumbfries Athletic during the current season. Probably, the most versatile player in Britain. Starred in recent international.

Alex. Bennett.—Albion Rovers, one of the finest and neatest dribblers playing the game in Scotland. Made his great reputation while a member of the Glasgow Rangers, and should delight Canadian soccer fans.

Alex. Troup.—Dundee youngster, who has been the sensation of the football season. He has been the star performer for the Dens Park outfit, but reached the pinnacle of fame when he featured a recent international game. Is "slippery as an eel."

Jimmy Quinn.—On retired list. Gained fame as centre forward for Celtic and Scotland. Of the aggressive, bustling type, he packed a wicked shot. Probably the best centre Scotland has produced. May play here occasionally.

James McMenemy.—The dandy little inside winger, who contributed much to the success of Partick Thistle in the recent Scottish Cup series. Formerly played for Celtic, and was frequently capped for Scotland. Known as the "Napoleon of Football."

Paddy Crossan.—No Scottish team would be complete without one member from Edinburgh. "Auld Reekie's" representative is Paddy Crossan, a back of the first water, rugged as he looks, but a veritable stonewall in the pinch. Possesses a powerful kick.

Alex. McNair.—Veteran right back of the Glasgow Celtic, hero of many international battles and considered one of the "brainiest" defence men playing the game in the Old Country. Of the "old war-horse variety." Never beaten!

Jimmy Brownlie.—Famous goalkeeper, who can be classed as a veteran. Has been faithful custodian for Third Lanark for many years, and has seen much service in international matches. One of the best exponents of last-time defence in the world—"Daddy of them all."

Coal Problem One Of Transportation

Canada's Manufacturing Industries Far Removed From Coal Supply.

Ottawa.—Canada has immense supplies of coal in both eastern and western fields, but 70 per cent. of her manufacturing industries are located in Ontario and Quebec, where no coal is produced. Therefore the difficulty becomes one largely of transportation. This was the evidence given to the special House Committee on fuel resources by Joseph G. Hudon, of the Department of Mines.

Mr. Hudon declared that at Sheep Creek, Alberta, there was a large deposit of coal almost equal to anthracite.

Finland to Retain Aland Isles.

Geneva.—The Aland Islands commission has submitted its report to the League of Nations here, recommending that the islands remain under Finnish sovereignty, with guarantees for the safeguarding of the Swedish population.

DAN MACNEIL,
President Dominion Football Association.

D. R. ROY,
Secretary-Treasurer, Dominion Football Association.

Bolshevism in Ireland

Organization in Dublin Fostering Irish Republican Movement.

London.—A despatch to the London Times from Helsingfors says it has been learned that a telegram was sent to Maxim Litvinoff, the Russian Soviet chief of legations abroad, March 29, which establishes "the existence of a Bolshevik organization in Dublin engaged in fostering the Irish Republican movement." This telegram, according to the correspondent, said: "It is of the greatest importance that the 'germ cell' in Dublin should get 50,000 pounds through Krassins." (Krassins is the Soviet Minister of Trade and Commerce.)

Ambassador To Vatican Selected

Former Allied High Commissioner in Athens Chosen.

Paris.—Charles Jonart, former Allied High Commissioner in Athens and former extraordinary ambassador to the Vatican, has been definitely selected by the French Government, according to L'Eclair, as France ambassador to the Vatican.

Pope Benedict, the newspaper states, has chosen Monsignor Cerretti, Papal under secretary of state, as nuncio in Paris, under the same conditions.

Bush Fires Cause Uneasiness.

Toronto.—Bush fires in the Temiskaming and Nipissing districts of Northern Ontario where the spring has been very dry, are beginning to cause some uneasiness. The Marshay Lumber Company's yards at Laforte, 30 miles west of Capreol, has been destroyed.

Cotton Wages Cut.

Manchester, Eng.—The cotton spinners and manufacturers' association has given notice of a reduction of 30 per cent. in wages in the weaving section. Three hundred thousand operatives will be affected.

Similar notice has already been given in the spinning section.

League to Meet in September.

Geneva.—The assembly of the League of Nations will hold its next meeting in September in Geneva. President Dacuna, of the league's council, has issued the call for this session.

Germany Unconditionally Accepts Reparation Terms

Prolonged Cheering Greets Announcement in the House of Commons.

Condemns Disturbances In Upper Silesia

Allies Have Issued a Proclamation to the Rebels.

Oppeln, Upper Silesia.—The international commission has issued a proclamation to the people of Upper Silesia saying: "The allied powers are fully agreed in condemning the disturbances in Upper Silesia. These events will not influence the allies' decisions. In due time the allies will give a decision in the Upper Silesian question based solely on the results of the vote and the treaty of peace."

Swiss Expel Foreigners

Unemployment and High Food Prices Given As Reason.

Berne.—Many Dutch newspaper correspondents in Berne and other Swiss cities have been ordered by the Government to leave Switzerland, "their stay no longer being considered necessary."

The Dutch ambassador has vigorously protested against this measure. Switzerland's financial condition, unemployment, and above all, the high prices of food, may well have caused this surprising order, many Swiss being of opinion that the influx of foreigners should be stopped by all means.

Trail Ore Tonnage Increases

Business Shows Big Lead Over Last Year's Figures.

Nelson, B.C.—A 50 per cent. lead over last year's figures in tonnage of ore received so far this year is the record achieved by the Trail Smelter, whose margin over the 1920 figures passed the 50,000 ton mark the week just passed. To date 149,677 tons have been received against 89,741 one year ago. The Consolidated Mining and Smelting Company's own properties produced 142,579 tons of this.

Belgian King to Visit England.

London.—It was officially announced that Albert, King of the Belgians, would pay a visit of state to England early in July. The visit will begin July 4 and end on July 8.

To Vote on Daylight Saving.

Saskatoon, Sask.—A plebiscite will be held in Saskatoon on June 1 to decide on daylight saving for the present summer.

Berlin.—The Reichstag accepted the Allied ultimatum by a vote of 221 to 175, thus yielding to the final demands of the Allied Powers, and in so doing, agreed to fulfil the terms of the Treaty of Versailles "to the capacity of the nation to do so."

Dr. Wirth, Centrist leader, finally succeeded in forming a coalition cabinet, composed of Centrists, Majority Socialists and Democrats, which confronted by grave necessity, speedily decided that acceptance of the ultimatum was the only course.

In making this announcement the new chancellor asked for an immediate decision, and in the voting, which followed, the Government was sustained. The Allied ultimatum required a definite reply, based on "Yes" or "No." No conditional reply would be entertained, and its ultimatum was formulated to expire on the night of May 12.

Berlin.—The Reichstag assembled at 9 o'clock and Dr. Wirth announced the formation of a new cabinet, with himself as chancellor and foreign minister.

London.—Germany's unconditional acceptance of the Entente reparation terms was delivered to Prime Minister Lloyd George by Dr. Stahmer, German minister to Great Britain, here.

Mr. Lloyd George announced in the House of Commons Germany's complete acceptance of all the Allied demands. His announcement was greeted with prolonged cheering.

Dr. Stahmer handed the German reply to the Prime Minister, and Mr. Lloyd George immediately telegraphed the news to all the Governments concerned.

Berlin.—Germany's reply to the allied ultimatum accepting the terms laid down by the Allied Supreme Council in London, is confined to a repetition of the exact terms of the decisions of the Allies with regard to guarantees, disarmament, the trial of war criminals, and financial conditions. The reply states that Germany adheres unconditionally to these decisions.

This reply was sent to the Allied capitals, for transmission to the heads of the Allied Governments, after the Cabinet, headed by Dr. Wirth, the new Chancellor, had received what amounted to a vote of confidence in the Reichstag.

Brandon Theatre Destroyed By Fire.

Brandon, Man.—The Willis Theatre and contents was totally destroyed by fire here following an explosion, the cause of which has not been learned. The loss is estimated at more than \$20,000.

Now Is The Time To Paint

If you have delayed painting, your property has suffered. Do not put off any longer. Save the surface and you save all. Look around and you will find many places, both inside and out that call for a coat of paint. Now is the time. Nature is re-decorating, get in line and do the same. The most economical method is to use

Guarantee

We guarantee the Martin-Senour 100% Pure Paint (except inside White and a few dark shades) that cannot be prepared from lead and zinc, to be made from pure white lead, pure oxide of zinc, with coloring matter in proportionate quantities necessary to make their respective shades and tints, with pure linseed oil and turpentine dryer, and to be entirely free from water, lead, zinc, whiting, and other adulterations, and sold strictly to chemical analysis.

Number Twelve

Most of our success in farming centers around moisture. Summerfallow is the best method we have of storing moisture. But summerfallow fails if we allow the weeds to grow. One ton of dry weeds uses 800 tons of water. Just think of it. In cultivating to destroy weeds it is important to work the land with tools that will not pulverize it and endanger its blowing. Give the dust mulch a wide berth but aim to keep the surface covered with lumps and free of weeds

Air Route Scheme in Alberta

Will Be Along Water Courses to Fort Norman.

The first commercial air route scheme in Northern Alberta and beyond will commence operations by the end of May. Captain May, promoter of the project, is now at Camp Borden taking special training in aviation. He will return to Edmonton shortly with a navigator's license, three new flying boats for service in the north and a crew of expert pilots. McLennan will be the base from which the air boats will fly. The route will be along the water courses via Fort Vermilion and Hay River, following the Peace and Mackenzie Rivers to the Great Slave Lake and Fort Norman oil fields.

To Retain Good Health Follow This Advice

Most important of all is proper attention to the bowels. Avoid constipation—it is the healthkiller of today. Harsh gripping medicine is ruinous—beware of it. Best results follow a remedy like Dr. Hamilton's Pills which relieve costiveness promptly and tone the bowels so that constipation becomes a thing of the past. No distress or inconvenience attends the use of Dr. Hamilton's Pills, which are famous for their mildness and efficiency. For headache, biliousness, indigestion and liver complaint, Dr. Hamilton's Pills are just what you need. Thousands maintain their health by regulating frequently with Dr. Hamilton's Pills, 25c all dealers of The Catarthozone Co., Montreal.

Prepared For Anything. Murdering a dying man in the presence of a priest, who was administering the last sacrament is the latest outrage credited to the Sinn Féiners. But there have been so many preceding ones of similar tenor that the public is prepared for anything in that line.—Hamilton Spectator.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render themselves liable to colds. Recurrent attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the nose thus reducing the inflammation and restoring normal conditions.

Helping The Red Cross

Everyone Working to Make Membership Drive a Success.

Some of the largest governmental and corporation organizations throughout the country are making use of their machinery to help the Red Cross Membership Enrollment, June 5 to 11, a success. The head offices of all the chartered banks of Canada are sending out literature to all their branches from the Atlantic to the Pacific. The Canadian National Railways is sending out literature to every employee in the Dominion. The Deputy Postmaster is himself sending out large display posters advertising the campaign to every post office in a conspicuous position where they will be readily seen by everyone transacting business.

Vancouver's Successful Shipping Year

Harbor Board Reports Big Business Done In 1920.

According to the report of the Harbor Board, Vancouver had a most successful shipping year in 1920. During the year 64,403 passengers passed in and out of the port, 50,300 being Trans-Pacific passengers, and the remainder being on coastwise steamers. In the twelve months 11,449 coastwise steamers with a tonnage of 4,441,316 tons entered the harbor, whilst the deep sea tonnage to call included 336 ships with a net tonnage of 1,163,699. During the last three months of the year 136,000,000 feet of logs entered the harbor, and 25,000,000 feet of lumber were exported by water. The coastwise imports during the last three months amounted to 226,334 tons, and exports 85,012 tons.

Nine women are qualified in England to wear the wig and gown, which entitle them to plead before the high court judges and in all the courts of law.

Clogged-Up Liver Causes Headache

It's foolish to suffer from constipation, sick headache, biliousness, dizziness, indigestion, and kindred ailments when Carter's Little Liver Pills will end all misery in a few hours. Purely vegetable. Act gently on liver and bowels. Small Pill—Small Dose—Small Price.

Greeks Reject Settlement

Allies Offered Generous Reward for Services During War.

A settlement by negotiation was offered to the Greeks which rewarded them for their services to the Allied generous lines. It was rejected. Cause during the war on more than with an overweening confidence in themselves, which nobody shared, the Greeks set out to satisfy all their demands by force. They have succeeded in getting hard knocks. There will be no sympathy for them in their disappointment, and when their quarrel with the Turks again becomes the subject of negotiation they must not be surprised if the conditions of settlement are less favorable to them than those they spurned.—London Daily Express.

Manslaughter in Second Degree

Using a razor—bad stuff—but many people do it for their corns. The only remedy that is painless and sure is Putnam's Corn Extractor, which does remove warts and corns, cleans them right off. Refuse a substitute for "Putnam's," 25c everywhere.

Resume Cattle Trade With Cardiff

Cardiff is the only port in the British Channel licensed for admission of cattle for immediate slaughter and a Canadian ship with a consignment of Canadian cattle is due here early in May. It is nearly 15 years since Cardiff has received a cargo of Canadian steer cattle and the resumption of the trade is causing much local satisfaction.

MUCH ILL HEALTH DUE TO BAD BLOOD

If the Blood is Kept Rich and Red You Will Enjoy Health.

More disturbances to health is caused by weak, watery blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders try building up the blood with Dr. Williams' Pink Pills. These pills have a special action on the blood and as it becomes enriched your health improves. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the experience of Mr. D. J. McDonald, North River Bridge, N.S., who says: "For some years I suffered severely with headaches, pains in the back and a run-down condition. At times the pain in my back would be so bad that I would sit up in bed all night. From time to time doctors were treating me, but did not give me more than temporary relief. And then one day when I was suffering terribly a neighbor came to see me, and urged me to try Dr. Williams' Pink Pills. After taking two boxes I felt relief. I got five boxes more and before they were all gone I felt as though they were giving me new life, as in every way they built up and improved my health and strength. I am now working as a baker in a pulp mill, ten hours a day and feeling none the worse after my day's work. I say with pleasure that all this is due to Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cts. a box, six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

India bamboo pulp is now used in the manufacture of strong wrapping paper.

A Summer Coat Of Navy Tussah

By Marie Belmont.

A silk coat is almost a necessity when dainty frocks are worn on cool summer days. This model is made of navy blue tussah, a silk that is not only smart-looking but thoroughly practical for all sorts of wear. This coat is designed with a generous, rolling collar which on occasion may be folded up more closely round the neck. A novel trimming appears upon it for they pompons of white silk are patterned upon the front, collar and cuffs. The narrow belt is fastened with two small roses made from the silk. The hat with jaunty upturned brim is decorated in the same manner as the coat.

Work and Play.

Do not try to avoid work, but seek to find work that is congenial. Nothing in life brings such satisfaction as congenial work, honestly and well done. There is a measure of truth in the saying that all work and no play makes Jack a dull boy. It is still more emphatically true that all play and no work makes Jack a useless member of society, a nuisance and a nobody.—Orinella Packer.

Externally or Internally, it is Good.

When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissues, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Are Cultivating Increased Acreage

Alberta Taking The Lead In Western Canada.

Acreage ready for seeding in Western Canada exceeds that of 1920. The three prairie provinces have acreage of 12,785,750 this year as against 11,649,744 in 1920. Alberta shows the largest increased crop. Conditions are favorable.

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remedy rests its reputation upon what it has done for others. It has a record covering years of success in almost every part of this continent, and even beyond the seas.

In Samoa, there are trees the bark of which yields a pure, snowy lace, used by the natives as clothing.

Hard and soft corns both yield to Holloway's Corn Removers, which is entirely safe to use, and certain and satisfactory in its action.

Needs Training.

The Visitor.—Yes, this picture is interesting, but have you been to see the new Whistlers.

Mrs. Newly Rich.—No; we don't care much for vaudeville.

Keep Minard's Liniment in the house

Mrs. A. Crawford Tells How Cuticura Healed Little Girl

"My little girl's trouble, started with small pimples on the back of her head and they spread down her back. The pimples were hard and red and they itched and burned terribly. She scratched and irritated them and they later developed into sore eruptions. Her hair fell out and became thin and dry, and scales fell off on her clothing."

"I used a free sample of Cuticura and the pimples commenced to dry up. I bought more and when I had used one cake of Cuticura Soap and one box of Cuticura Ointment she was healed." (Signed) Mrs. Alonso Crawford, 83 Parker St., Bangor, Maine, Jan. 22, 1920.

For every purpose of the toilet and bath Cuticura Soap, Ointment and Talcum are wonderfully good. Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Dispensary, Limited, 24 St. Paul St., W. Montreal. Cuticura Soap shaves without stung.

New Station At Moose Jaw

Building Erected By C.P.R. Is Very Attractive.

The Canadian Pacific Railway Company have about completed the erection of a splendid new railroad station in Moose Jaw. The new buildings are very attractive and provide greatly increased accommodation for the heavy traffic converging upon this important railway centre.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm-Extirminator to drive out the parasites.

New Line To Cuba.

A direct line of steamships between Vancouver and Cuba has just been arranged. Five thousand tons of raw sugar from Cuba were landed at Vancouver recently, and the steamer on the return trip carried a full cargo of canned salmon.

M. Barker Prop.

19300 JHO. H. Mortgage Sale of Farm Property, Near Monitor, Alberta.

Pursuant to the Directions of the Registrar of the North Alberta Land Registration District there will be offered for sale by B. R. Cramer, at the office of B. R. Cramer, at the office of B. R. Cramer, in the Town of Monitor in the Province of Alberta, on Saturday the 18th. day of June A. D. 1921, at the hour of 2 o'clock in the afternoon, the following lands, namely:

The south west Quarter of Section twenty-five (25) Township thirty-five (35) Range four (4) west of the fourth meridian in the Province of Alberta, containing by admeasurement One Hundred and Sixty (160) acres, more or less, according to Dominion Government Survey, subject to the reservations contained in the present Certificate of Title for the said lands.

The Vendors are informed that there are 160 acres of land, of which 160 acres are good arable land. There are 60 acres of the said property fenced for pasture, and a three strand wire fence and cedar and willow posts. The soil on the said property is clay loam with clay subsoil, averaging approximately 10 to 12 inches in depth. The said property is watered by three wells. The nearest railway station to the said property is Monitor, a distance of eight miles. The said property is situated in a settlement of Russian English-speaking people. The said property is situated 8 miles from a church and 2 miles from a school. There are the following buildings on the said property: House 14 x 26 1 storey, clay material, shingle roof, Barn 29 x 34, 1 storey, stone material, straw roof; Granary 12 x 14, 1 storey, clay material, clay roof; Granary 12 x 24, 1 storey, lumber material shingle roof. There are 100 acres of land under cultivation on the said property this year.

The Property will be sold subject to a Reserve Bid. Terms of payment will be Twenty (20) per cent cash, on the date of sale, and the balance of the purchase money to be paid to Messrs. Griesbach, O'Connor and Company, within thirty days (30) thereafter, without interest, in the alternative the purchaser to give a mortgage for \$500.00, repayable in five equal annual instalments with interest at Nine (9%) per cent per annum, and the remainder of the balance within Thirty (30) days without interest.

Other Terms and Conditions and further particulars may be had from Messrs. Griesbach O'Connor and Company, Solicitors, 10072 Jasper Avenue, Edmonton, Alberta

MONITOR - ALBERTA

PLAY BALL

The Monitor Baseball Club, we understand, have been very instrumental in forming a League, at a meeting held at Consort last Thursday. Consort, Loyalist, Neutral Valley, Veteran and Monitor participating. Mr. Roy Cramer was the local representative. A constitution has been drawn up and a representative from each club will act as directors of the league through the coming season. More complete details will be published later. Hereunder is the Schedule which has been tentatively drawn up. This is of course subject to revision, or confirmation and announcements re this will be made as soon as soon as possible.

Last Sunday a goodly number of Fans players, etc., turned out for practice, and for the game as was advertised in last week's News. The game proved interesting in spite of it being an hour or two behind time. This idea of leaving the game until away late should be discontinued, as at some future date the team may be tied up for want of practice players.

Batting practice was most in order, and the regulars still have their old fault of trying to lose the ball in the neighboring wheat field. They should

remember at least that balls cost \$2.50 per, and most of the time a nice easy swing of the club dishes up a nice safe hit, and THAT COUNTS.

Here is an actual photo of Gilliam, taken Sunday. He sure covers the field nicely, and is a

curtain receiver in c.f. Our friend and financier, Mr. Kirk, showed up so well in L.I. that the official photographer also, snapped him in action.

he possesses a great wing for throwing home, and is also a good receiver. Let the neighbors be careful of their plays to left field. We were delighted

with the snap and vim of our old friend Tommy Watson, at s.s. He is there like a duck again this year in spite of his recent operation. The scrubs simply couldn't put one past him and they sure tried hard as the accompanying picture shows. This sort

of thing is easy for Tommy. The other players that were regulars last year Saske, Purdy, Souquist and Sinclair showed up equally well considering that it was their first try out for a real practice. The management has plenty to pick a winning team from—there's Stewart, McGirr, Baxter and others that are always willing to do their share. The Clubs is "The best man in the proper place, none kicking, all boosting."

The new mechanic at Horsch Garage, Mr. Glover, worked for the scrubs in the

box—he has good action, but lost his game through lack of support. We will doubtless see more of him in the future.

Compeer versus Monitor, at Monitor at 6 p.m. sharp on May 24th.

MONITOR ALBERTA

The Annual Spring Effort

It was midnight on the ocean,
Not a street car was in sight
The sun was shining brightly
And it rained all day that night

T'was a summer day in winter
The snow flakes fell like glass
A barefoot boy with shoes on
Stood sitting on the grass.

T'was evening and the rising sun
Was sitting in the west
And the little fishes in the trees
Were huddling in their nest.

The rain was pouring down
The moon was shining bright
And everything that you could see
Was hidden out of sight.

While the organ peeled potatoes,
Lard was rendered by the choir;
As the sexton rang the dish rag
Someone set the church on fire.

Holy Smoke," the preacher shouted,
In the rain he lost his hair:
Now his head is just like heaven,
For there is no parting there.

Strayed—To my place a young black Sow. Owner can have same by paying for the feed and care, and this ad, Joe Warbow S.W. 4 of 18-35-3
